

# Curtains

## Measurement Instructions

### A.

LENGTH of curtain rail (mm)

HEIGHT from floor to ceiling (mm)

### B.

If something is blocking the rail, you need to divide the curtain in to separate curtains, with separate rails.

Specify the length of each curtain rail and the height of each curtain.

### C.

The rail can be mounted in the ceiling or from the wall. Please specify which option you want to use.

Note! The rail should always be mounted at least 100 mm from the wall, specify if other.

### D.

When mounting the rail in the ceiling, please specify which type of ceiling and attach pictures.
