DELIVERING INSPIRATION FOR 60 YEARS

Our company heritage and experience

Specialising in ceramic and porcelain for 60 years, Minoli has supplied beautiful floor, wall and mosaic tiles to a diverse range of clients, each with very specific needs.

When founded in London in the late 1940s, the company initially both produced and installed Terrazzo, before relocating to Oxford and branching out into supplying Italian ceramic tiles in the 1960's. Still run by the Minoli family today, we like to think our clients value our instinctive approach to sourcing the best products and reliably delivering them.

Perhaps our roots influence the way we operate? Or maybe it's just our untiring enthusiasm?

We think it's both, with a heritage and ability that we're proud of. In preparation for the years ahead, we're evolving to even better meet your needs.
